-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-4, drawn to method of replacing gas detecting fuel cartridge.

Group II, claim(s) 5-8, drawn to method of replacing gas detecting output voltage and supplying fuel from fuel cartridge.

Group III, claim(s) 9-12, drawn to method of replacing gas detecting output voltage and supplying fuel from fuel tank.

Group IV, claim(s) 13-20, drawn to method of replacing gas turn on switch and supplying fuel from fuel cartridge.

Group V, claim(s) 21-28, drawn to method of replacing gas turn on switch and supplying fuel from fuel tank.

Group VI, claim(s) 29-34, drawn to fuel cell system with sensor.

Group VII, claim(s) 35-40, drawn to fuel cell system with voltage Detector and fuel cartridge.

Group VIII, claim(s) 41-46, drawn to fuel cell system with voltage Detector and fuel tank.

Group VIII, claim(s) 47-53 drawn to device for fuel cell with switch and fuel cartridge and attaching part for fuel cell.

Group X, claim(s) 54-60, drawn to a device comprising switch with connecting part for fuel cartridge.

Group XI, claim(s) 61-67, drawn to a device comprising switch and fuel tank.

The inventions listed as Groups I-XI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Groups I-V are five different methods of replacing gas wherein group I teaches detecting fuel cartridge which is different than the other four methods. Groups VI-VIII are three different fuel cell systems wherein group VI teaches a sensor which is different than the other two. Groups VIII-XI teaches three different devices wherein group VIII teaches a device comprising an attaching part for the fuel cell which is different than the other two.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
